Mr. Bob Shumway
W-K Enterprise
3080 Spanish Trail Drive
Moab, Utah 84532

Re: ??

Dear Mr. Shumway:

In regard to your phone call of November 23, 1981, inquiring about the concerns the Division of Oil, Gas, and Mining has for the proposed uranium operation, I would like to advise you of the following.

The State of Utah Resource Development and Coordinating Committee (RDCC) has reviewed the information presented on the mine and approved of its operation.

The State of Utah General Rules and Regulations and Rules of Practice and Procedure for Mined Land Reclamation, Rule M-2(e) states that: mining operations for which this rule is applicable, do not include those operations from which less than 500 tons of minerals or nonmineral bearing material are mined in a period of 12 consecutive months or where less than two acres of land are excavated or used as a disposal site in a period of 12 consecutive months. Therefore, since the uranium operation which is proposed by W-K Enterprise has less than two acres of disturbance involved, the Division of Oil, Gas, and Mining has no further concerns.

Sincerely,

Sally Kefer
